

## Revolutionizing Employee Scheduling for Shift-Based Operations

Experience the dual power of rich UKG Pro Workforce Management data and Shiftboard's scheduling expertise for unmatched coverage, compliance, overtime fairness, and workforce engagement outcomes.

Transcending conventional integration, this alliance galvanizes a new era in workforce scheduling for shift-based operations. Leveraging a UKG-approved API integration, Shiftboard's SchedulePro unleashes maximum value of your UKG Pro WFM data, taking your scheduling performance to new heights.

### Key Benefits

#### Optimized Scheduling Efficiency

- Leverage UKG Pro WFM data to automate scheduling workflows tailored for every plant, unit, or group's process needs.
- Use up-to-date UKG employee, time, and leave data to automatically validate assignment eligibility and priority.
- Compare scheduled and actual work data for accurate schedule planning and forecasting.

#### Guaranteed Compliance

- Employ UKG time and attendance data to enforce complex scheduling rules including local labor laws, HR policies, union contracts, and fatigue management standards.
- Access exclusive SchedulePro tools and reports for exception management and compliance auditing.
- Benefit from the certainty that comes with Shiftboard SchedulePro's exclusive [compliance guarantee](#).

#### Seamless Data Connections

- Instantly update employee profiles to reflect changes made in UKG Pro WFM through a secure, pre-built API.
- Quickly create base schedules by importing shift patterns directly from UKG Pro WFM.
- Ensure time and attendance, and payroll accuracy by syncing schedule data with UKG Pro WFM.
- Instantly check time-off balances to validate leave request approval and keep UKG Pro WFM records updated.

## Integration Overview

Leverage your UKG data and Shiftboard's employee scheduling expertise to create schedules optimized for coverage, compliance, and worker preferences.

Make informed scheduling decisions grounded in your reliable UKG workforce data, including time and attendance, payroll, and other essential information.

Create seamless data connections to eliminate tedious data entry and validation, freeing HR and operations managers to support team members effectively.

## About Shiftboard

Shiftboard is a leading provider of employee scheduling software for shift-based operations in mission-critical industries. Backed by Shiftboard's tailor-fit solutions, organizations can build adaptive workforce operations that increase operational agility, optimize labor resources, and accommodate workers' preferences, leading to improved efficiency and higher worker satisfaction and retention rates. Shiftboard has supported approximately 680 million scheduled shifts for thousands of customers, including many Fortune 500 companies, providing the employment pipeline for more than \$72.5 billion in wages earned.
